## Building with Care

WILLIAM CONWAY/PROGRESS PHOTOGRAPHY

Work has reached the top floor of the Niagara Health Care Complex & Walker Family Cancer Centre in St. Catharines, Ont. The five-storey, design/build facility being built by PCL Constructors Canada Inc. will include a cancer centre for radiation treatment, a mental health centre, a cardiac centre, and patient rooms. The project was designed by B+H Architects and Silver Thomas Hanley in a joint venture and is designed to meet LEED certification. Consultants are: Halsall Associates (LEED/structural/building envelope); Smith + Andersen (mechanical/electrical); Leber Rubes (life safety); A.M. Candaras (civil); and Soil-Mat (geotechnical).
